Description:

Ebocom, L.L.C. is a fast-growing boutique technology company that provides full-service back-office transaction processing. “Fast, focused and flexible” is our motto at eboCom and the eboCom team is the “Best of the Best”! We are looking for another individual to join our team who possesses an extremely positive “can do” attitude and is eager to help support our growth. The ideal candidate must be a business-minded, customer-focused, technically savvy, detail oriented individual with an entrepreneurial spirit that is capable of functioning with little to no direct guidance.

As a key team member, the ideal candidate will have demonstrated experience with the Java development environment. This individual will work closely with the product development manager and other team members in a lead role to design, develop and deploy of Java-based application systems in both a web-facing and server environment.

Responsibilities:

- Design, develop and support highly scalable, reliable and feature rich transaction processing and Data Warehouse reporting environments
- Work with business and technical users to understand requirements
- Collaborate with IT ... network administrators, systems administrators and security administrators
- Run and monitor software performance tests on new and existing applications for the purposes of remediating issues, isolating areas for improvement and general debugging
- Administer critical analysis of test results and deliver solutions to problem areas
- Assist in the development and maintenance of code documentation

Position Qualification Requirements:

- Bachelor’s degree or equivalent experience
- 3+ years of solid Java development experience
- Experience with multi-tier systems and Java EE concepts (EJB, MDB, JMS, Session Beans)
- Experience with web user-interface design using ReactJS and TypeScript is beneficial
- Experience with web standards such as HTML, CSS, and JavaScript, helpful
- Experience with SQL queries and relational databases
- Ability to code and implement a variety of script solutions is a plus
- Ability to work independently with limited guidance in a collaborative team environment
- Self-starter, with strong organization skills and attention to detail
- Effective analytical and problem solving skills
- Ability to manage multiple tasks with shifting priorities

Additional Skill Considerations:

- Working knowledge and experience within the Financial Payments industry
- Working knowledge and experience with JBOSS
- Working knowledge and experience with Oracle Database and PL/SQL
- Working knowledge and experience with Python
- Working knowledge and experience with Linux OS

Compensation Package:

- Paid Personal Time Off (vacation and sick days)
- Full Family Medical, Dental and Vision coverage ... 100% Premium paid by company
- Insurance: Life, Short-term and Long-term disability

Obsessed with Excellence!

- First class work environment
